- Strong analytical and problem-solving skills along with excellent communication and interpersonal skill .
- Self-motivâtes and quick Lerner, willing to adapt to new challenges and technologies.
- **Mobile Application Testing (Android & IOS)**

Technical Skills & Tools

Automation Tools	:	Python (3.12.1), Katalon Studio (8.6.0)
API Testing Tools	:	Postman
Testing Methodologies	:	Functional, System, SIT, Regression, UAT, BVT, PVT, Agile Methodologies, Waterfall, Compatibility Testing, Cross Browser Testing, white Box Testing, Black Box Testing
Testing Management Tools	:	JIRA, Pro -Track (Oracle)
Agile Tools	:	Jira Software
Databases	:	MySQL, Oracle(19c), Mango DB
Programming Language	:	Java (JDK 17), Python
Operation System	:	Windows, MacOS
IDE	:	PyCharm
Load Testing	:	Apache JMeter

Certifications

- **JMeter(Udemy (12/2022))**
  (Completed Certification for Stress & Load Testing as well as API Testing)
- **Katalon Studio /Automation Testing (Expert Level of Certification) (10/2023 - 10/2025)-Official website**
  (Completed Expert level certification for Automation Testing)
- **GIT Basics Certification (08/2024)**
  (Working within GitHub repositories || Reuse the code| Issue Tracking)
- **Git Lab (06/2024)**
  (Web-based repository management | Version Control | CI-CD Pipeline | Team Collaboration | Continuous Integration)
- **Agile & Scrum Fundamental (06/2024)**
  (Proficient in Agile Methodologies with a strong understanding of scrum frameworks. | Experienced in daily stand up, sprint planning)

Professional Experience

BJS (Bhartiya Jain Sanghatana)   **Role: Jr. Quality Analyst**

Project 1: RWB (Rejuvenation of Water Body)

      Project description: Rejuvenate the water bodies in various states in India after water body registered different department wise (Agriculture, Forest, Soil & Water, Water Conservation Department, etc.). Creating Machine by selecting machine types (Backhoe & Excavator) user then DPC allocate the machine on that waterbody structure & after that work will started for water conservation

Responsibilities:

- Created test scripts by using katalon, functional and regression test.
- Used advanced XPath and CSS selectors techniques to identify web elements, proficient in using Selectors Hub
- Created test Cases in **Zephyr - JIRA plug-in/ Pro-Track, testing and entering issues in JIRA**.
- Involved in preparation of Test cases and Test Data
- Conducted **Data Driven and Cross browser testing.**
- Involved in **Smoke, Sanity, Functional and Regression Testing**
- Involved in database testing using SQL queries.
- Reported weekly and monthly status reports.

Project 2: PMS

      Project description: Maintain all employee work performance in quarter wise and giving the rating based on performance.

Responsibilities:

- Created test scripts by using katalon, functional and regression test.
- Used advanced XPath and CSS selectors techniques to identify web elements, proficient in using Selectors Hub
- Created test Cases in Zephyr - JIRA plug-in/ Pro-Track, testing and entering issues in JIRA.
- Involved in preparation of Test cases and Test Data
- Conducted Data Driven and Cross browser testing.
- Involved in Smoke, Sanity, Functional and Regression Testing
- Involved in database testing using **SQL queries.**
- Reported weekly and **monthly status reports.**

Project 3: Meeting Room Booking ("This project was developed as part of an extracurricular activity with Dev Team")

      Develop In house application for book meeting room using Oracle Apex

Responsibilities:

- Used CURD Operation by using PL SQL (Insert, Update, Delete)
- Gather Input and requirements from technical staff, end user & management.
- Generate report of data (Interactive Report, Classic Report, Interactive Grid)
- Design & develop forms and reports.
