EXPERIENCE

Bhartiya Jain Sanghatana

15/2022 - Present

Quality Analyst

Project 1: Vivaah Verse (Mobile base application)

Technology Stack: Manual Testing, Load Testing(JMeter), Functional Testing, Security Testing(Data), Compatibility Testing(Different devices, OS versions).

Roles and Responsibilities:

- Created more than 300 automated test cases for various software modules, which improved software release cycles
- Reducing manual testing efforts by 40 percent and decreasing error rates by 20 percent
- Facilitated defect review meetings with development teams, resulting in faster issue resolution and improved software quality
- Reported and tracked defects using Pro-Track, ensuring timely issue resolution and improving software robustness by 15 percent

Project 2: RWB (Rejuvenation Of Water Body) - Ongoing—— (Feb 2023)

Industry: Organizational

Technology Stack: Playwright- Generate test Script, Allure Report, Python, JMeter-Load testing, Cross browser testing, UI Testing, Pro-Track - Defect Management

Roles and Responsibilities:

- Involved in preparation of Test cases and Test Data.
- Reported weekly and monthly status report.
- Conducted Performance testing to reduce data load to improve system efficiency. , logged, and tracked defects using tools like Pro-Track, ensuring timely resolution

Project 3: Demand Generation —— (Dec 2023)

Technology Stack: Manual Testing, Load Testing(JMeter), Functional Testing, Security Testing(Data), Compatibility Testing(Different devices, OS versions).

Roles and Responsibilities:

- Designed, developed, and executed test cases, test plans, and test scenarios based on business requirements
- Performed manual and automated testing for web application
- Facilitated defect review meetings with development teams, resulting in faster issue resolution and improved software quality
- Reported and tracked defects using Pro-Track, ensuring timely issue resolution and improving software robustness by 15 percent
- Ensured software quality standards and compliance before production release

EDUCATION

Shivaji Mahavidyalaya college

201 – 2021

Degree Name - BCA (Bachelor Of Computer Application)

PERC - 77.50

TECHNICAL SKILLS

- **Technical Skills:** Python (PyTest), Selenium IDE, Java (JDK-18)
- **Automation Tools:** PyCharm, TestNG, Postman, Playwright
- **Testing Methodologies:** Agile, Scrum, Waterfall, BDD, TDD, Manual Testing
- **Load Testing:** Apache JMeter
- **Bug Tracking:** Pro-Track (Oracle), Asana, JIRA
- **Version Control:** GitHub

CERTIFICATION / ACHIEVEMENTS

- **Automation:** Python With Selenium Automation Tester Certification.
- **JMeter:** (Performance & Load Testing) Certification.
- **GitLab Certification:** Version control, CI/CD
- **Agile Scrum Fundamental Certification**
