Technical Skills:

- **Programming Language:** Python (PyTest), Selenium IDE, Java (JDK-18)
- **Automation Tools:** Selenium, JUnit, TestNG, Postman, PyCharm
- **Testing Methodologies:** Agile, Scrum, Waterfall, BDD, TDD, Manual Testing
- **Testing Frameworks & Management:** TestNG, PyTest
- **Load Testing:** Apache JMeter
- **Bug Tracking:** Pro-Track (Oracle), Asana, JIRA
- **Version Control:** GitHub

Experience Summary:

Accomplished QA Engineer with 3.8 years of experience in ensuring the quality and reliability of web and mobile applications. Proven expertise in the full Software Testing Life Cycle (STLC), including requirement analysis, test planning, execution, and defect tracking. Adept at balancing manual testing precision with automated testing efficiency to accelerate release cycles.

1. Vivaah Verse (Mobile base application)-Ongoing

on *Vivaah Verse*, a web-based platform designed to streamline matrimonial services by enabling user registration, profile management, and matchmaking functionalities.

Roles and responsibilities:

- reducing manual testing efforts by 40% and decreasing error rates by 20%
- Created over 300 automated test cases for various software modules, which improved software release cycles by 20%
- Reported and tracked defects using Pro-Track, ensuring timely issue resolution and improving software robustness by 15%
- Facilitated defect review meetings with development teams, resulting in faster issue resolution and improved software quality

2. OCTOPUS

The octopus app gives the complete technical support to the government schools for an effective implementation of the MulyaVardhan program across the india , This App helps us avail the various facilities like Mulyavardhan Mobile App Programme Management, Planner (Attendance, Task and Leave), Feedback of Teacher's Training programme etc

Roles and responsibilities:

- Contributed to test plan and strategy development, enhancing test effectiveness by 15%

- Assisted in creating automated test scripts for web applications, reducing manual testing by 25%
- Participated in Agile sprint planning sessions, contributing to a 10% improvement in test planning and execution
- Created detailed test reports and documentation using Confluence, increasing test transparency and traceability

3. RWB(Rejuvenation Of Water Body)-Ongoing

Focusing on restoring lakes and ponds through desilting, deepening, and water conservation techniques. Contributed to improving groundwater levels and water storage capacity by supporting sustainable water management initiatives and community-driven activities.

Roles and responsibilities:

- Involved in preparation of Test cases and Test Data
- Used advance XPath & CSS Selectors techniques to identify web elements
- Reported weekly and monthly status report
- Conducted Performance testing to reduce data load to improve system efficiency

EDUCATION

BCA (Bachelor of Computer Application)
(Shivaji Mahavidyalaya Udgir)

2018-2021
Overall CGPA: 8.84

CERTIFICATION

- | | |
|--|---------------------|
| • Python With Selenium Automation Tester Certification | The Testing Academy |
| • JMeter (Performance & Load Testing) Certification | Udemy |
| • Agile Scrum Fundamental Certification | The Testing Academy |
| • GitLab Certification | The Testing Academy |
